Hayatabad, Peshawar | GitHub: <https://github.com/Hazziqg>

PROFILE:

I am a Computer Science student passionate about frontend development, with hands-on experience in HTML, CSS and Next.js. I enjoy building interactive, user-friendly web applications and continuously explore new technologies to enhance my skills. I also have a growing interest in cybersecurity, which strengthens my awareness of building secure and privacy-focused user experiences. I'm eager to contribute to developing innovative, secure, and high-quality digital solutions.

-

SEMINARS ATTENDED:

- Devfest

The Google Developer Group (GDG) at our university recently hosted a DevFest, which brought together industry professionals, and students to discuss the newest developments in technology. The creation of a dynamic environment where students could network and get advice from professionals in the field was one of the outcomes of this event, giving them the confidence to pursue meaningful careers in technology.
